PROFESSIONAL EXPERIENCE

Regional Project Specialist | IST Management Services, Boston, MA

May 2025 – Present

- Led planning and implementation of small to medium projects to achieve short and long-term business objectives; developed project, communication, and training plans in MS Project and Smartsheet, managing all activities to ensure delivery on time, within budget, across 4 concurrent implementations with zero schedule overruns
- Maintained project portfolio and reviewed status with senior leadership; used MS Project and SharePoint to support ongoing project management efforts, reducing reporting lag by 32% and ensuring business solutions consistently met organizational standards
- Developed meeting and briefing materials including agendas, meeting minutes, briefings, presentations, and talking points; presented programme status and analytical findings to executive management, improving cross-functional reporting accuracy by 28%
- Assisted with analysis of current project management processes to identify the most efficient ways to complete projects; applied process improvement recommendations that reduced documentation effort by 38% while maintaining full delivery adherence

Project Coordinator | Charles River Center, Needham, MA

Sep 2024 – Apr 2025

- Directed end-to-end delivery of a 150-individual compliance project; developed and executed project and test plans, managed all project activities to meet quality standards, and delivered all phases on time with zero scope gaps
- Established and maintained strong partnerships with internal and external customers; gathered business requirements, developed a thorough understanding of business functions and processes, and issued corrective action plans that reduced rework by 35%
- Facilitated identification and resolution of project risks and issues across clinical, IT, and operations teams; coordinated and realigned project resources as priorities changed, cutting follow-up cycles by 22%
- Created process flows, instruction manuals, and end-user training tools across 3 departments; standardized documentation practices and enabled self-service for recurring project activities, cutting template build time by 12%

Business Analyst | Technoventor Innovations Pvt. Ltd., Nagpur, India

Dec 2022 – Aug 2023

- Administered project schedules, budgets, and resource plans for 1,000+ client implementations in Excel and MS Project; performed routine analysis and research in support of business goals, reporting status weekly to international stakeholders
- Identified and escalated 5 business-critical risks across procurement and production workstreams; resolved project issues through cross-functional coordination, reducing fulfillment delays by 23%
- Constructed Power BI dashboards tracking project portfolio performance and operational trends; surfaced analytical insights that informed strategic planning and reduced unexpected disruptions by 17%

KEY PROJECTS

Project Portfolio Management & Reporting | *MS Project, SharePoint, Smartsheet, Excel*

Built and maintained a project portfolio tracking system across 4 active workstreams in MS Project and SharePoint; developed project and communication plans, produced meeting and briefing materials for executive leadership, performed process analysis to identify efficient delivery approaches, and reviewed portfolio status with senior leadership, reducing reporting prep time by 31% and ensuring all business solutions were delivered on time and within budget.

Clinical Documentation & Training Plan Standardization | *MS Project, Asana, Confluence, Visio*

Executed a hybrid Agile-Waterfall project delivering process flows, instruction manuals, and end-user training tools across IT and clinical departments; developed test plans, established partnerships with internal and external stakeholders to gather requirements, and maintained project documentation to organizational quality standards, reducing documentation turnaround time by 30% and achieving full adoption across all teams.
